## Summary

Computer Science Engineering student with strong organizational, communication, and problem-solving skills, along with experience in Java, web development, and cloud computing. Skilled in coordinating project tasks, maintaining documentation, conducting research, and collaborating with teams in fast-paced environments. Proficient in MS Excel, Google Sheets, MS Office, and presentations. Eager to contribute to project management initiatives while continuously learning and adapting to industry best practices.

## Skills

- Project Coordination & Documentation
- MS Excel, Google Sheets, MS Office
- Effective Communication & Presentation Skills
- Team Collaboration & Time Management
- Languages: Java and C
- Web: HTML5, CSS
- Concepts: OOPs, Data Structures
- Tools: Git, GitHub, IntelliJ, VS Code
- Other: Cloud Computing

## Education

**LNCT University | Bhopal, Madhya Pradesh**  
Computer Science Engineering | CGPA: 8.30

**Kathmandu Model School**  
Class 12th - 82%

**Graded English Medium School**  
Class 10th - 81%

## Projects

### Secure Cloud Storage System | Spring Boot, MySQL, JWT, RBAC

- Coordinated backend development tasks and maintained project documentation to ensure smooth workflow.
- Conducted research on secure authentication and role-based access systems for efficient implementation.
- Implemented JWT-based authentication and role-based access control (RBAC).
- Designed chunk-based file upload for handling large files efficiently.
- Collaborated on permission-based file sharing and public link access functionalities.
- Structured the system for future integration with cloud storage platforms such as AWS S3.

## Certificates

- Data Structures & Backend with Java
- GEN AI Study Jams
- Deloitte Cyber Job Simulation
